

**PRODUCTS WITH A SYSTEM >>>**

The Robotunits Modular Automation System offers a maximum of possibilities with minimal components. Thanks to the high degree of standardization, all elements of our system can be easily combined. Benefit from play-free and vibration-resistant connections, without drilling or milling. Decades of project experience and personal customer service guarantee time and cost savings for our customers.

**Conveyor Technology**

The just-in-time Conveyor Technology

**Linear Motion System**

The custom-made Linear Motion System

**Extrusion & Fastening Technology**

Play-free and vibration-resistant

**Safety Fence System**

The easily constructed Safety Fence System

**MBS PickStar**

The versatile MBS PickStar

**Tote System**

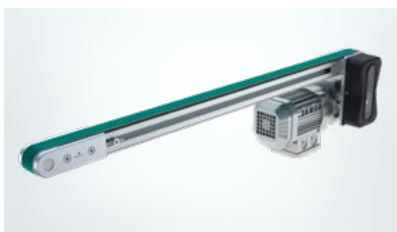

A complete Tote System from a single source

**Belt Conveyor**

**Timing Belt Conveyor**

**Modular Belt Conveyor**

**Slat Top Conveyors**

**Powered Roller Conveyor System**

**Roller Conveyor without drive**

**Storage and Feeder Hopper Conveyors**

**Workbenches and Material Handling**

**Assembly markings and pre-assembled fasteners**

The fastest assembly in the world

**WORLD FIRST**
